Are there any existing fences around the perimeter of the property? Yes No

Will the primary purpose of this fence be to contain pets? Yes No

Please attach a drawing of the proposed fence. Be sure to include property lines, home outline, fence boundaries, servitudes, approximate dimensions, and the position of gate(s).

Use the following space to give a brief explanation of the drawing(s). Attach additional sheets if necessary.

If fencing within servitude, the fence must not impede drainage of your lot or surrounding lots. Furthermore, the Parish of Ascension maintains the right that any fence within the servitude is subject to removal without any prior notification by the parish and will not be held responsible for expense or replacement of the structure.

By signing below, I understand that the Legacy Hills Architectural Committee has 30 days from the date received to review and respond to this submission. It also gives the committee the right to review the proposed site of the fence. Any changes of the plans by the homeowner must result in an additional submittal. This submittal is strictly for this specific lot and is not implicit of the same improvements being made to other lots without additional approvals. All city, parish, and state codes must be adhered to during all phases of construction.
